Bunk Bed Safety Warning

* Follow the information on the warnings appearing on the upper bunk end structure and on the carton. Do not remove the warning label from bed.

* Always use the recommended size mattress or mattress support, or both, to help prevent the likelihood of entrapment or falls.

* Surface of mattress must be at least 5 inches (127mm) below the upper edge of guardrails.

* Do not allow children under 6 years of age to use the upper bunk.

* Periodically check and ensure that the guardrail, ladder and other components are in their proper position, free from damage, and that all connectors are tight.

* Do not allow horseplay on or under bed and prohibit jumping on the bed.

* Always use the ladder for entering and leaving the upper bunk.

* Do not use substitute parts/replacement parts. Contact BombayKIDS for replacement parts at 1-800 829-7789.

* Use of a nightlight may provide added safety precaution for a child using the upper bunk.

* Always use guardrails on both long sides of the upper bunk. If the bed will be placed next to the wall, the guardrails that runs the full length of the bed should be placed against the wall to prevent entrapment between the bed and wall.

* The use of water or sleep flotation mattresses are prohibited.

* Keep these instructions for future reference.

* Prohibit more than one person on upper bunk.

⚠️ WARNING/DANGER:
CHOKING HAZARD/RISQUE DE SUFOXATION
-Small parts/petite pièces.
Not for children under 3 yrs./Pas pour les enfants sous 3 ans.
Parts List

A. Support Slats 26 pcs
B. Upper Headboard 1 pc
C. Upper Footboard 1 pc
D. Front Side Rail w/Guard 1 pc
E. Back Side Rail w/Guard 1 pc
F. Ladder 1 pc
G. Wood Dowels 4 pcs
H. Small Wood Caps 2 pcs (& 2 pcs additional)
I. Big Wood Caps 4 pcs
J. Hooks 2 pcs
K. Phillips Head Screwdriver 1 pc
L. Allen Head Wrench 1 pc
M. Long Phillips Head Screws 52 pcs
N. Short Phillips Head Screws 8 pcs
O. Barrel Nuts 2 pcs
P. Lock Washers 2 pcs
Q. Flat Washers 2 pcs
R. Lower Headboard 1 pc
S. Lower Footboard 1 pc
T. Lower Side Rails 2 pcs
U. Allen Head Bolts 2 pcs

Use only Bombay KIDS replacement parts. Call the following number to request the part, 1-800 829-7789.

* Please make sure that you have all the parts and hardware indicated above before you begin assembly of this item.
* Use the hardware illustrations to determine correct piece and size.
* This item should be assembled on a soft surface to prevent scratching the finish during assembly.
* This item may require periodic tightening.
* This item is to be assembled by an adult and is not intended to be taken apart by a child.

1. **Attach Lower Side Rail (T)** Insert the exposed hooks of Lower Side Rails (T) into the pre-bored slots of the Lower Headboard (R) & Lower Footboard (S). Press Lower Side Rails (T) down onto the pins in the Lower Headboard (R) & Lower Footboard (S). Make sure that the hooks are all the way down onto the pins. See illustration #1.

3. **Attach Front & Back Guard Rails (D,E)** Insert the exposed hooks of Front & Back Side Rails w/Guard (D,E) into the pre-bored slots of the Upper Headboard (B) & Upper Footboard (C). Press Front & Back Side Rails w/Guards (D,E) down onto the pins in the Upper Headboard (B) & Upper Footboard (C). Make sure that the hooks are all the way down onto the pins and pre-drilled holes in the ends of Back Side Rail w/Guard (E) align with the pre-drilled holes in the posts of Upper Headboard (B) & Upper Footboard (C). Insert the Barrel Nuts (O) into the pre-drilled holes in the Back Side Rail w/Guard (E). Make certain that the groove on the Barrel Nuts (O) faces out. Align the holes in the Barrel Nuts (O) with the pre-drilled holes in the ends of Back Side Rail w/Guard (E). Barrel Nut (O) position can be adjusted with Phillips Head Screwdriver (K). Insert Allen Head Bolts (U), Lock Washers (P) & Flat Washers (Q) into the pre-drilled holes in the posts of the Upper Headboard (B) & Upper Footboard (C). Secure with Allen Head Wrench (L). Cover the heads of Allen Head Bolts (U) with Small Wood Caps (H). Tap the wood caps securely. Due to the small size of the caps, they can present a choking hazard if they fall out. See illustration #2. **If the bunk will be placed next to the wall, the guard rail that runs the full length of the bed should be placed against the wall to prevent entrapment between the bed and the wall.**

5. **Attached Hooks (J)** Align the pre-drilled holes in long part of Hooks (J) with the pre-drilled holes in the Ladder (F). Secure with Short Phillips Head Screws (N) using Phillips Head Screwdriver (K). See illustration #3.

6. **Attach Upper Bed to Lower Bed** Insert the Wood Dowels (G) into the pre-drilled holes in the posts of the lower bed. Lift the upper bed to align the pre-drilled holes in the post ends of Upper bed with the Wood Dowels (G). Put upper bed on lower bed. See illustration #4.

7. **Attach Ladder (F)** Hook the Ladder (F) on the left or right of Front Side Rail w/Guard (D). Adjust and align the pre-drilled holes in the short part of Hooks (J) with the pre-drilled holes in the back of Front Side Rail w/Guard (D). Secure with Short Phillips Head Screws (N) using Phillips Head Screwdriver (K). See illustration #4.

Illustration # 3
NOTE:
Use only a mattress that is 75 inches long and 38-1/2 inches wide on the bunk beds. Ensure the thickness of mattress and foundation combined does not exceed 7 inches and the mattress surface is at least 5 inches below upper edge of guardrails.
Creating Two Matching Twin Beds

When making two matching twin beds that sit on the floor:

1. Disassemble the guard rail from the Front Side Rail w/ Guard (D) & Back Side Rail w/ Guard (E) by dismantling the Short Allen Head Bolts using Allen Head Wrench (L). Dismantle all short wood screws using Phillips Head Screwdriver (K). Keep the guard rails & hardware for storage. See illustration # 5.

2. Cover the holes on the side rails with Small Wood Caps (H). Tap the wood caps in securely. Due to the small size of the caps, they can present a choking hazard if they fall out. See illustration # 5.

3. Remove the Side Rails (D, E, T) from both beds and switch the Lower Bed’s Footboard (S) and the Upper Bed’s Headboard (B). This will create two beds with identical headboards and footboards. See illustration # 6.

4. Install all side rails in both beds.

NOTE:
Removable Guard Rails should only be removed to create two matching twin beds that are both places on the floor. Always assemble the Guard Rails for upper bunk assembly.
