Power Requirements

Activate the two CR2032 back-up batteries by removing the paper tab from the battery compartment. Replacement of these batteries is required every 2-3 years.

Install 6 AA alkaline batteries. Use only fresh/new batteries in this product. Replace all 6 used batteries when the low battery icon flashes.

To eliminate the need for AA batteries, use the AC adapter designed for this product.

NOTE: Using the AC adapter will allow the display light to remain on when LIGHT is pushed.
BATTERY SAFETY
Batteries may leak or explode if recharged, inserted improperly, inserted in the wrong direction, disposed of in fire, or mixed with different battery types.

Only replace with fresh, new batteries. It is important batteries are inserted in the correct orientation. (See the diagram inside the battery compartment.) Batteries positioned incorrectly may leak.

RESET
If this product does not operate properly, insert the tip of an unbent paperclip (or similar) into the opening to reset the display and memory.
Setting the Clock

Press the “HEAR TIME” button to have the current time announced.

Press MODE twice. (Current time setting flashes on the display.)

Press 1 to decrease hours, 2 to increase.

Press 3 to decrease minutes, 4 to increase.

Press and hold buttons to rapidly change the setting.

If no additional buttons are pressed, the setting is saved and the display returns to normal.
Year and Temperature Display

Press MODE three times.
(Year and temperature display flashes.)

Press 3 or 4 to change temperature display between Fahrenheit or Celsius.

Press 1 to decrease year, 2 to increase.

Press and hold buttons to rapidly change the setting.

If no additional buttons are pressed, the setting is saved and the display returns to normal.
Setting the Month and Date

Press MODE four times. (Current date setting flashes on the display.)

Press 3 to decrease date, 4 to increase.

Press 1 to decrease month, 2 to increase.

Press and hold buttons to rapidly change the setting.

If no additional buttons are pressed, the setting is saved and the display returns to normal.
Setting the Alarm

Press MODE.
(Alarm time and icon flashes on the display.)

Press 1 to decrease hours, 2 to increase.

Press 3 to decrease minutes, 4 to increase.

Press and hold buttons to rapidly change the setting.

Press 5 to change and select alarm volume. (LO/Soft, HI/Loud, UP/Ramp-up.)

Press ALM ON/OFF to activate or deactivate the alarm. (Icon is visible if alarm is activated.)

If no additional buttons are pressed, the setting is saved and the display returns to normal.
Press MODE one time, then press DISPLAY to change the type of alarm sound.

If CD is the alarm sound, press TUNING up or down to select wake-up track.

When alarm sounds, press ALM ON/OFF to silence alarm and reset it for the next day. Press again to cancel the alarm.

**SNOOZE-BOOST**
To postpone the alarm once it sounds, press SNOOZE/LIGHT.
Each press of this button adds 10 minutes to the delay time. (Pressing three times will give you a 30-minute delay.)
Audio Controls

Press SLEEP from 1 to 6 times to turn the audio on for 15 to 120 minutes. Power will shut off automatically.

Press POWER to turn on for continuous play.

Press SOOTHER to play Sound Soother environment sounds.

Press band to play AM/FM and TV audio.

Press CD > || to play or pause CD.

Press EQ to rotate through audio equalizer options.

Press POWER to manually turn the audio off at any time.
Press POWER or Press SLEEP (1 to 6 times)

Press SOOTHER

LCD screen indicates number of currently selected sound.

Use SOUND GUIDE located on the lower portion of the display to match the desired sound to its index number.

Change the selected sound by pressing TUNING up or down.

Stop by pressing POWER or select a different audio option (CD or RADIO).
Press CD OPEN and firmly press CD onto spindle.
Press POWER or Press SLEEP (1 to 6 times)
Press CD > or CD (Play/Pause)
LCD screen indicates number of track on current CD.
Change the selected track by pressing TUNING up or down.
Stop by pressing POWER or select a different audio option (SOOTHER or RADIO).

Because of the high power requirements of the CD player, use of the AC adapter is strongly recommended for extended or frequent CD playing.

This player features electronic shock protection (ESP), which reduces skipping caused by sudden movement. The ESP is automatically activated when a CD is being played.
CD Player - Play Options

SONG LOOP
Press RPT/PRG one time while a song is playing to lock the current song on the continuous play loop. (Screen displays ONE loop icon.)

CD LOOP
Press RPT/PRG two times while a song is playing to lock the current CD on the continuous play loop. (Screen displays ALL loop.)

Press TUNING up or down to select song track number.

Press RPT/PRG to choose the selected track and advance the playlist number.

Program up to 20 songs (tracks) in any order.

Press CD>11 (Play/Pause) to begin playing.

Press STOP to cancel at any time.
24 Hour Clock and International Radio

This product is normally shipped with the radio and time display set to US default. Use the following procedures to change between worldwide radio options as well to change the time display between 12-Hour or 24-Hour modes.

CHANGE TO 24 HOUR DISPLAY
Press MODE until the time setting flashes.
Advance hours by pressing 2 until it passes 12 midnight, the display will now be in 24-Hour mode. 3:00 PM will be displayed as 15:00. (Advancing past 24:00 will return clock to 12-Hour mode.)

CHANGE RADIO SETTING
Press MODE until the country code setting flashes.
(USA/United States of America, EU/Europe, JP/Japan.)
Press 1 or 2 to sequence through the setting options.
Antenna and Reception

The TV audio band (US version) requires a strong broadcast signal and will not operate properly in areas located away from a broadcast or relay station.

FM radio reception can be optimized by adjusting the length and position of the built-in external FM antenna. Many stations will come in clearer with the antenna less than fully extended.

Because of an internal antenna, AM/MW radio reception can be improved by adjusting the position or location of the product itself.

NOTE: TV Audio is featured only in the US version of this product.
AM/FM/TV Audio and Preset Stations

There are 6 presets available for each audio band.

PROGRAMMING:
(Radio must be on.)
Tune to station.
Press MEM/DEMO
Press any button 1-6.
Repeat using a new station and preset number.

RECALLING:
Press the desired number 1-6 to recall previously set stations.
Statement of FCC/DHHS compliance
Model: SI785

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

NOTE: This product complies with DHHS Rule 21 subchapter J at date of manufacture.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for assistance.
CLASS 1 LASER PRODUCT

CAUTION
INVISIBLE LASER RADIATION WHEN OPEN AND INTERLOCKS DEFeated.

This product contains a low power laser device.
FULL ONE-YEAR WARRANTY

What is Covered
This warranty covers any defects in materials or workmanship, with the exceptions stated below.

How Long Coverage Lasts
This warranty runs for one year from the date of original purchase.

What is Not Covered
This warranty does not cover damage caused by misuse or use other than as intended and described in the product instruction manual, or replacement of batteries.

What The Sharper Image Will Do
The Sharper Image will either repair any defects in materials or workmanship, or exchange the defective unit with a reconditioned unit. In the event repair or exchange is not possible, The Sharper Image will either replace this product with one of similar features and price, or refund the full purchase price of the product, whichever you prefer.

How to Obtain Service
Return the product and receipt, along with a brief explanation of the problem, to:
T.S.I. - Returns Department
2901-A West 60th Street
Little Rock, AR 72209

If You Have Questions
Please feel free to contact our customer service representatives at 1-800-344-5555 or by email at care@sharperimage.com.

This warranty gives you specific legal rights, and you may have other legal rights that vary from state to state.
